

It's my future! by **Lilly**

Forced into positions,
I wouldn't choose for me
These are your decisions
It's my future - can't you see?

We get treated equal,
Don't want to repeat mistakes
Now is the elder's sequel-
It's my future that awakes.

I know we can do better
There's no time to wait!
We will do this together-
It's my future we create.
