

It's my future!

You, or should I say *we*, are going to take over the world,
Do you really want to live in a world that fully blurred?
Why should my vote count less,
When I'm going to be the one who needs the success?!

You might imagine your vote doesn't count
However, don't think we should live without.
It is *us* who will teach the young,
We can't show them something that's undone.

We are the generation who will take care of the earth
So, we most definitely should not stay unheard.
Always remember it's not only about you,
Helping other youths is the right gesture to do.

Marie
